## Pt Chev named "Club of the Year"

At the recent Auckland Bowls Annual Prize-giving, it was with great pleasure we received the award for Club of the Year. This has been the culmination of a lot of hard work over the previous years, both in Bowling achievements and in the administration and development fields. Despite the fact we were down in numbers at the awards luncheon, the noise that came from our table when it was announced would have been heard all over the waterfront! Also on that day, president Ian McKenna received the award for 'Personality of the Year', a great tribute for the man that follows every game that any of our guys are involved with and always gives as much support as he can. Congratulations to all of our bowlers who picked up awards at this year's ceremony, well done!
